Defense Readiness Reporting System

(DRRS)

Ready for What?

Worldwide Joint Training Conference 2004

31 August 2004

COL Pat Sherman
OUSD (P&R)

Readiness Conference Agenda Wed, 18 Aug

0800-0900	**PACOM DRRS Implementation and Lessons Learned** **Lt Col "Juice Juselis, J72 Readiness Directorate, PACOM**
0900-0930	**JDRAT Functionality - Carl Springer, OSD P&R (Camber)**
0930-1000	**Defense Readiness Specialists and DRRS Support Center -** **COL Sherman, OSD P&R**
1000-1015	**Break**
1015-1200	**ESORTS Functionality Demo (Build/Assess MET/METL)** **COL Sherman, OSD P&R**
1200-1330	**Lunch**
1330-1430	**DRRS Interim Guidance - COL Sherman, OSD P&R**
1330-1430	**METL/MET Assessment Discussion - COL Sherman,**

The Challenge…

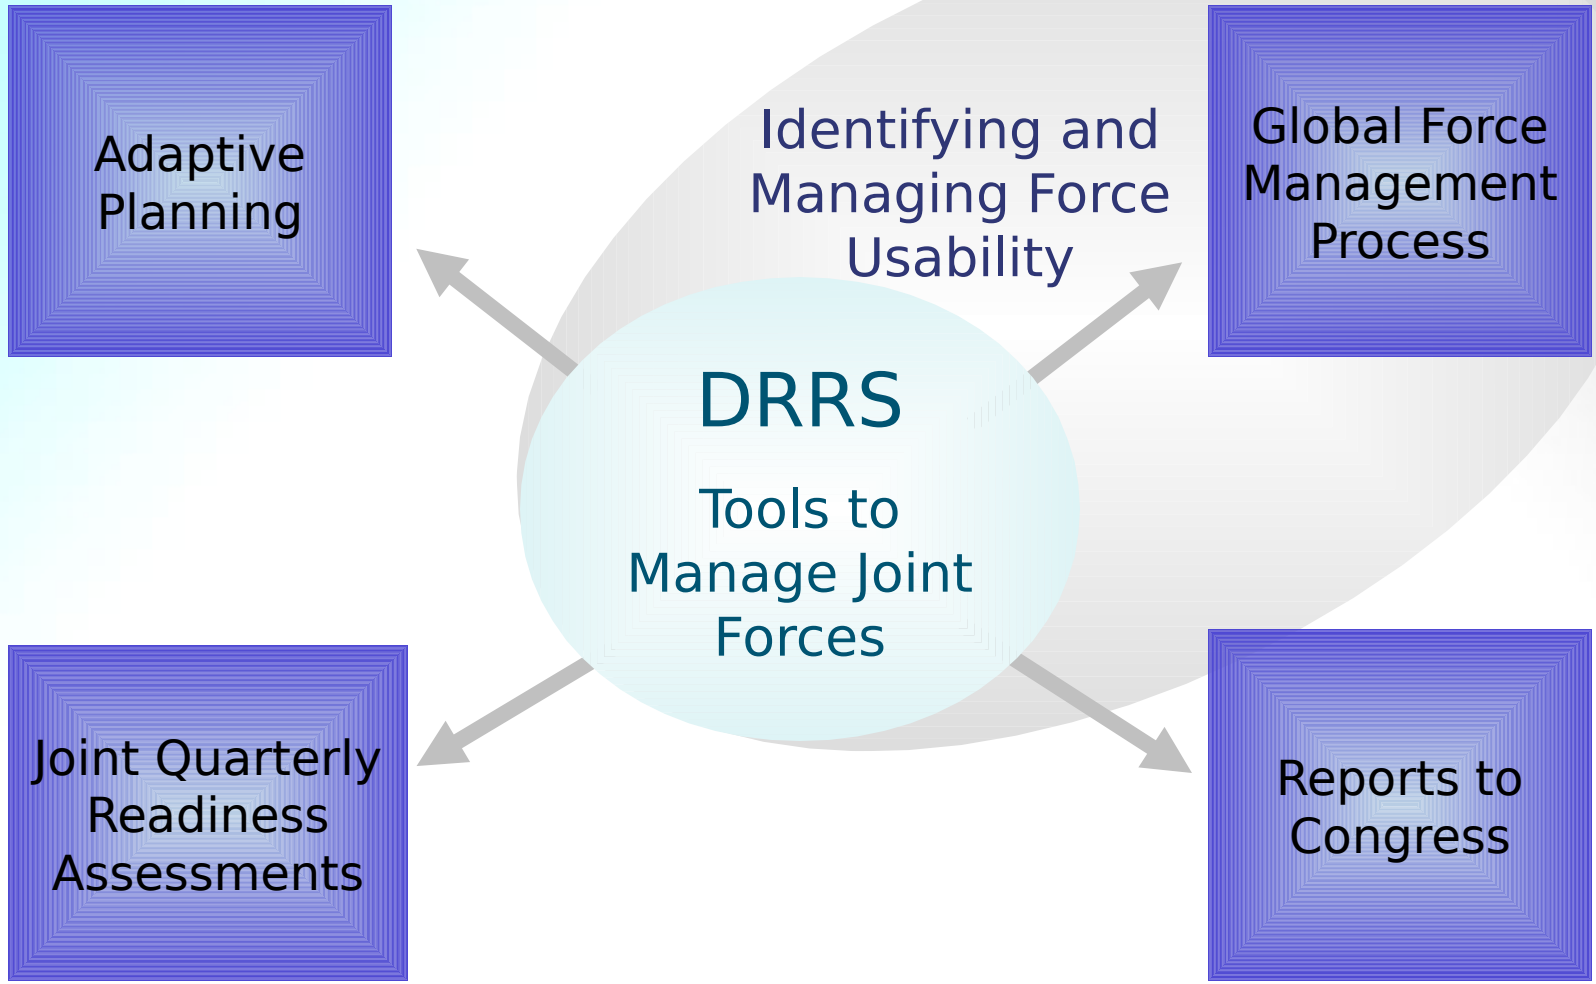
- War planning has become more difficul
  - Changing strategic environment
  - Driven by world events in real-time
  - Compressed assessment and decision timelines

- Dynamic planning and rapid readiness assessment can help frame issues and alternatives
  - Redesign the readiness reporting system to foster real-time assessment
  - Use technology to fuse current readiness status with mission planning and analysis

Managing usability requires changes…

- **In how we assess risk**
  - Uses collaborative tools linked to near-real time data
  - Requires operational context —What forces can and cannot do?
- **In how we respond to deficiencies**
  - Builds in the identification of mitigation strategies
  - Considers readiness reporting, risk assessment and adaptive planning as one large, iterative process
- **In how we measure force status**
  - Focus on forces and missions
  - Includes Joint, support, operational units, and Combat Support Agencies
- **In how we think of readiness**
  - Beyond narrow resource accounting
  - Synonymous with capability—What can forces do?
  - In the context of assigned missions

Developing management tools and processes



… DoD is Evolving to Capabilities-Based Reporting

- **6/02 – DoD Directive 7730.65 Establishes DRRS**
  - Measures and reports readiness of military forces & supporting infrastructure to meet missions & goals assigned by the Secretary of Defense using a MET construct
- **6/02 – CJCSI 3401.01C Chairman's Readiness Reporting System**
  - Focuses combatant commanders and CSAs on assessing their readiness in terms of functional areas or METs (AMETs and JMETs)
- **7/02 – DUSD (R) Memorandum Implementing DRRS**
  - Establishes the Battlestaff process and governance
  - Forum for input from key stakeholders
- **12/03 – Strategic Planning Guidance**
  - The Service Secretaries, the Directors of Combat Support Agencies, and the Joint Community will begin reporting mission readiness and force management data in DRRS according to Mission Essential Tasks (METs) by 30 September 2004."

Development Schedule

- **Initial capability**
  - **Portal and registration**
  - **Build and assess MET**
  - **Resource displays**
- Expanded resource displays, query capabilities, scenario library, initial force allocation module
- Mobility and transportation models, expanded force allocation software
- Primary risk assessment applications
- Full risk and scenario assessment capability

Tools for Managing Joint Forces

DRRS is Integrated with Related Communities and Efforts

- **Training Community (DUSD R)**
  - **Plan to Task Study**
  - **T2 relationship/integration**
  - **Interface with JTIMS (METL development and assessments)**
  - **J7 Training UJTL/Service/CSA integration (JDEIS web-site) http://JDEIS.CORNERSTONEINDUSTRY.COM/JDEIS/INDEX.JSP**
- **Planning Community (OUSD (P) and Joint Staff J7)**
  - **Capabilities Based Planning and JCIDS process**
  - **Adaptive Planning**
- **Navy – DRRS-N, TRMS, and data access using web-services**
- **JFCOM and Joint Staff J-8**
  - **Joint Staff J3 GFM Process/Support**
  - **Joint Staff J8 Force Management FCB Co-Chair**
    - **Data integration/requirements in support of GFM/JFP/JDPO/DPO**
    - **Force Structure Organizational Server**
    - **Enterprise Wide Identifier (EWID)**
  - **JFCOM J3 Joint Force Provider Integration (JDOC and JFP requirements)**
  - **JFCOM J9 JDES Lab, JDPO teaming**

DRRS is Integrated with Related Communities and Efforts

- **TRANSCOM (Distribution Process Owner)**
  - **J6 Logistics capability and information flows**
  - **Coordinating with JFCOM J9 for common IT architecture for data sharing/integration in support of Deployment Process Owner (DPO)**
- **PACOM – Operational Sponsor**
  - **JDRAT support**
  - **Mobile Training Teams/Support Center**
  - **Initial COCOM to implement ESORTS**
  - **Provide operational feedback/Lessons Learned for future deployment of ESORTS**
- **OASD NII Net Centric Data Strategy**
  - **Integration with Net Centric Data Strategy**
  - **Pilot application for Core Security and Discovery Services**
  - **Enabling effort for evolving to the Global Information Grid**
  - **Efforts in accessing Services databases for information exchange**
  - **Updating policy and processes for data integration and sharing**

DRRS Defense Readiness Specialist MOA

Purpose - Specify the duties and responsibilities of the COCOM Defense Readiness Specialist. Additionally it will specify the responsibilities of OUSD (Readiness) and the (COCOM Name).

Responsibilities of the Parties

- **OUSD (Readiness):** will fund the defense readiness specialist program through DRRS Full Operational Capability (FOC).
- **OUSD (Readiness, Programming, and Assessment):** Function as the program manager (PM) for the defense readiness specialist program and will be responsible for the training of the specialists.
- **COCOMs and Joint Staff J3 Readiness:** Provide the Defense Readiness Specialist with appropriate office space, a computer having access to the DoD classified and unclassified networks, and a telephone.

BACKUP SLIDES

August 2004

DEFENSE READINESS REPORTING SYSTEM

DRS Duties and Responsibilities

- Assist the (COCOM Name) Readiness Officer in Developing and Executing the DRRS Implementation Plan
- Provide Training for DRRS Users
- Conduct Briefings, Seminars, and Workshops with the (COCOM Name) Staff and Subordinate Commands on METL Development and Readiness Assessment Using ESORTS.
- Additional Duties Mutually Agreed Upon Between the

DRRS Support Center

DEFENSE READINESS REPORTING SYSTEM

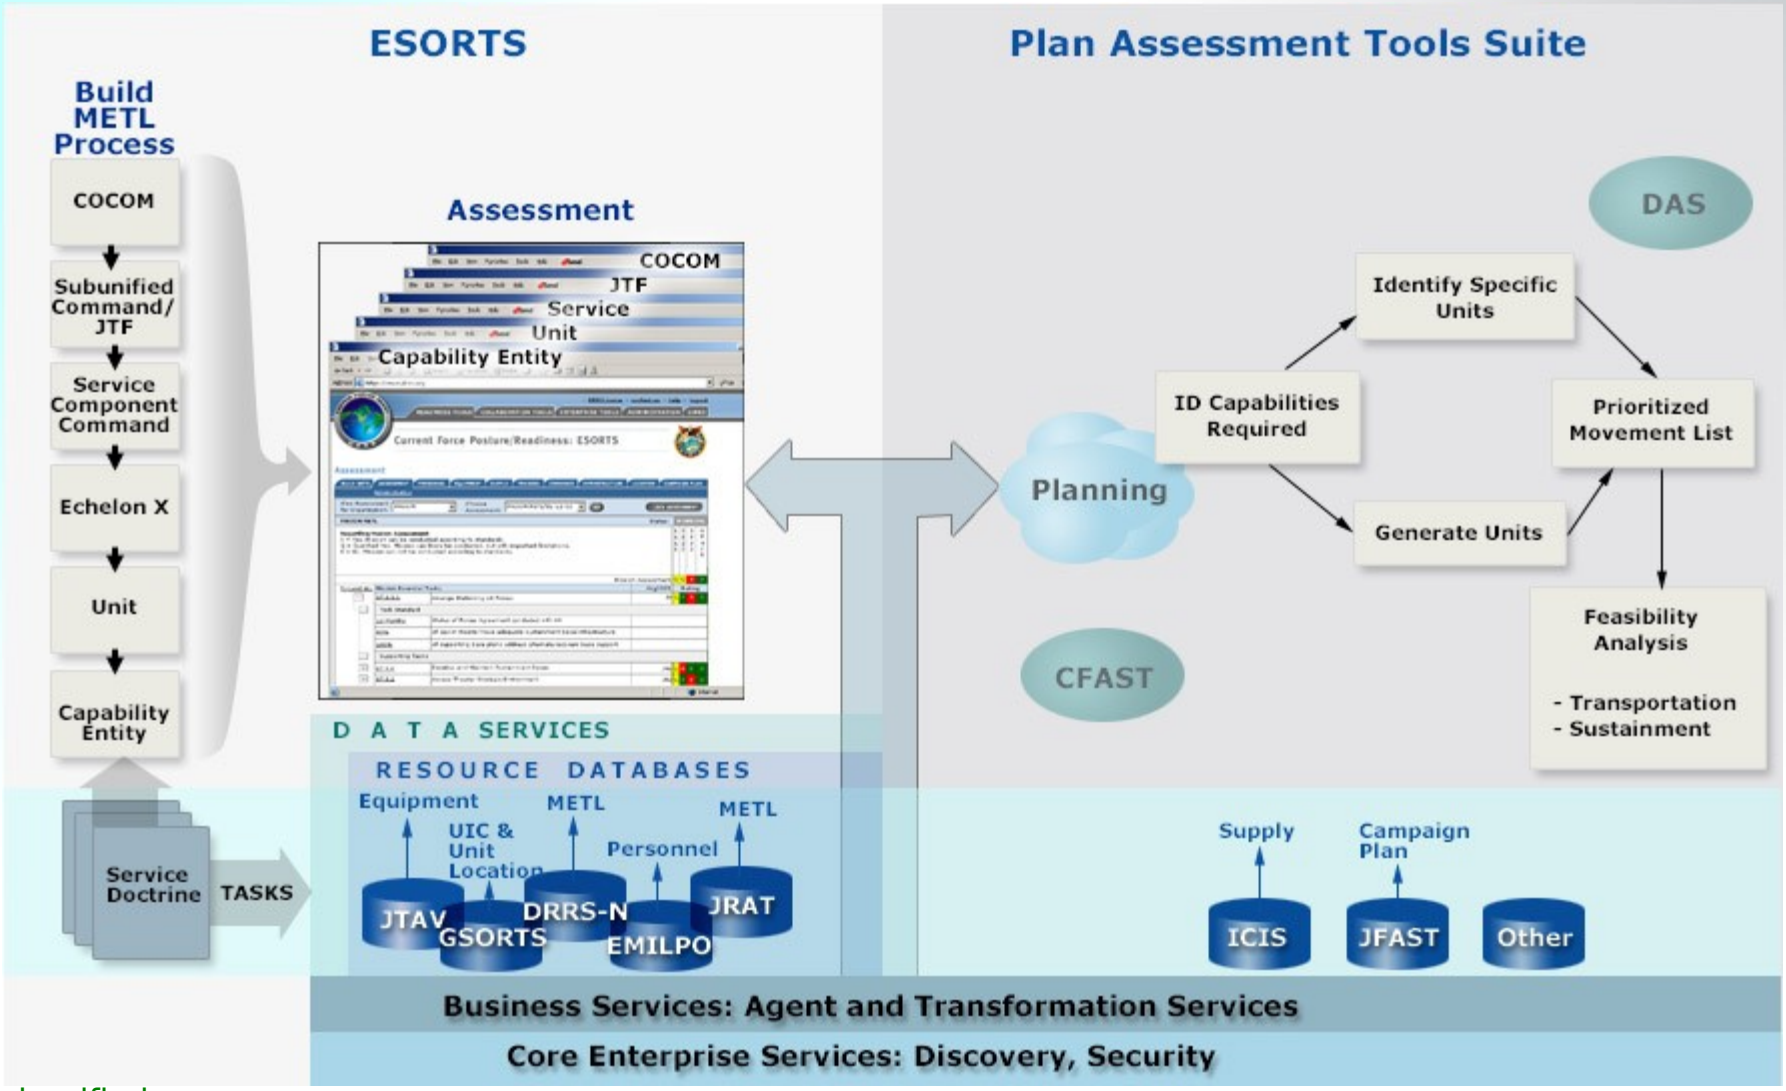
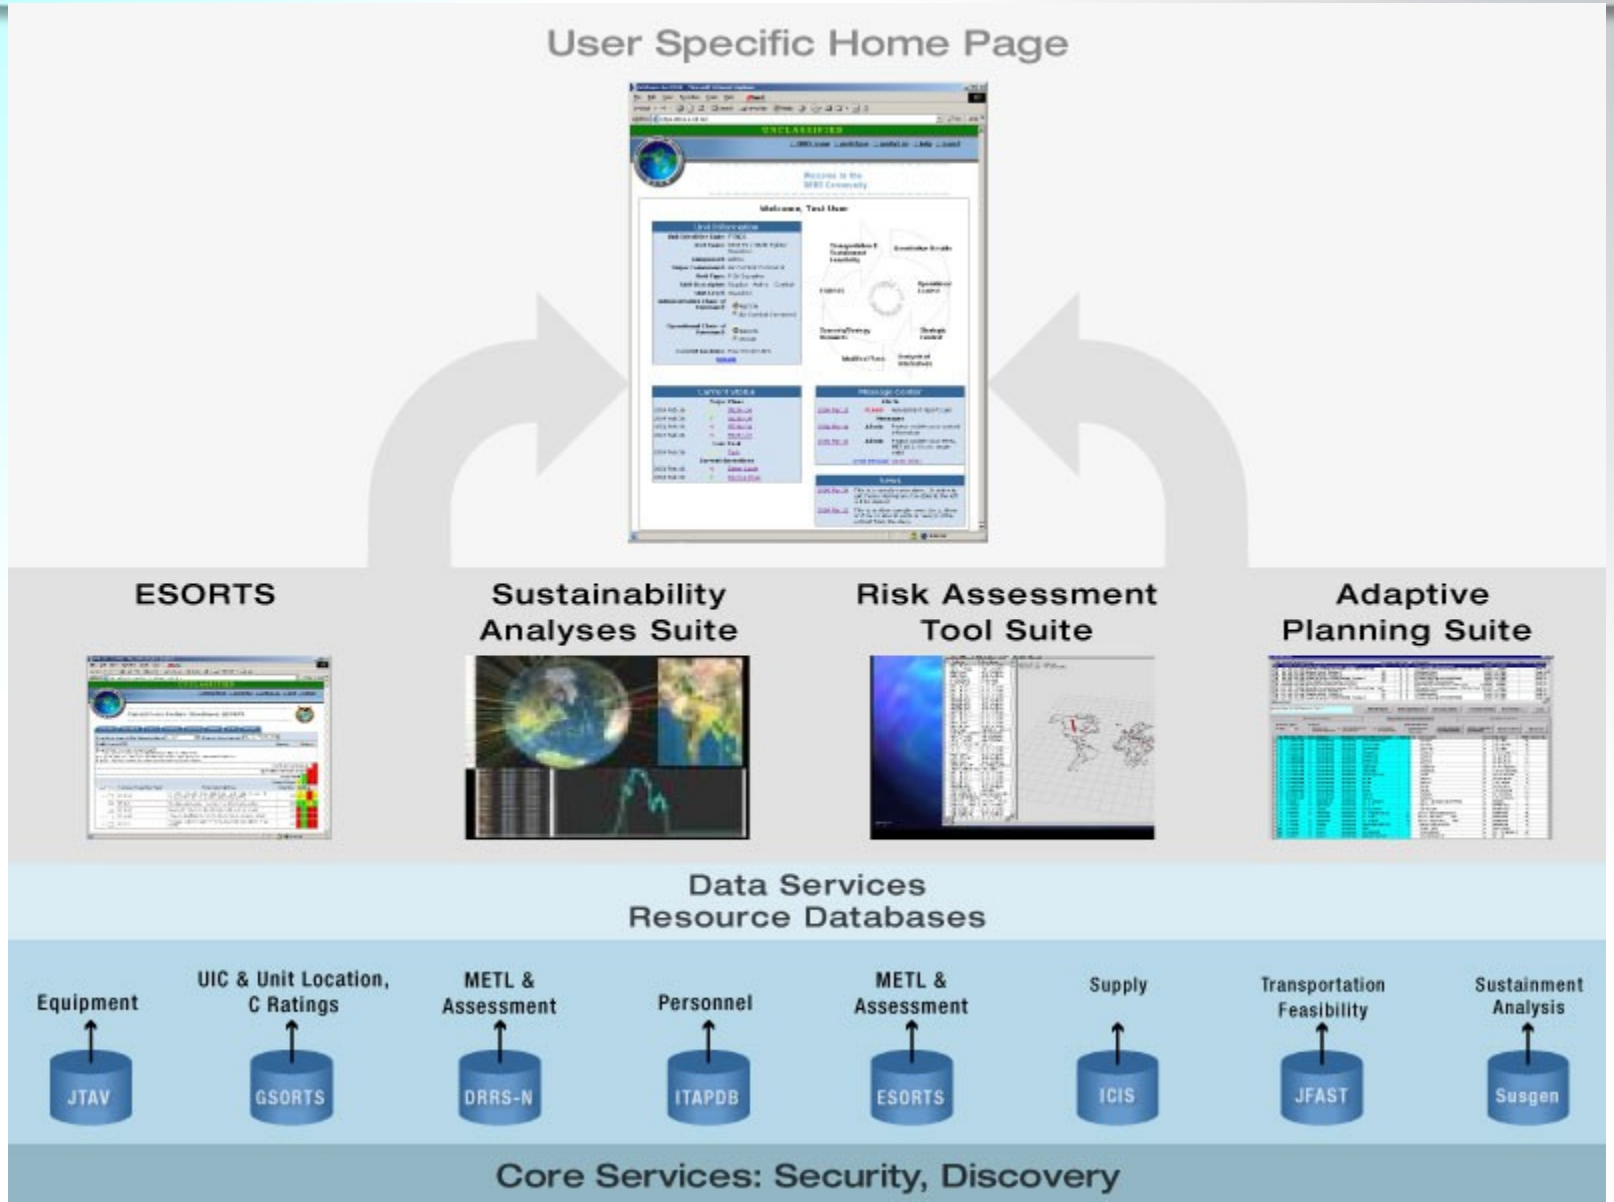
DRRS Conceptual Model



Capability reports are only a part of the system



Portal and Registration Functions

- Registration
  - Registration is required
  - User information including name, position, phone number, email
  - Unit information including assigned missions
  - Assignment of roles and missions (commander, unit admin, unit user, guest)
  - DRRS system database of units and user profiles and access information
- At-a-glance view of related organizations
  - Administrative hierarchy
    - Strawman from CFDB
    - Ability to edit
  - Related information
  - Dates of last assessment
  - Instant access to detailed assessment
  - Snapshot of current mission status w/dates
  - Access to other DRRS applications
  - Access to other units homepage
  - Access to administrative tools
  - Ability to send and receive DRRS community messages and alerts
  - News postings
  - Discussion forum
  - File sharing

Build MET Functions

- Can build a new METL or edit an existing one
  - METLs in either status appear as “in staffing” until the unit commander validates it
- Editing METLs
  - “Update” and “Remove” options for each task
- Basic Build METLs
  - Text-based user aids
  - Search UJTL by number, keyword, or capability required/desired
  - Provides task definitions
  - Users can customize title and definition (Task number remains the same to facilitate analysis and capability substitution)
  - Assign OPRs, OCRs, and POCs for each task
  - Assign tasks to specific missions
  - Conditions from drop-down menus
  - Standards can be recommended or created
- Supporting tasks
  - Permissions and policy for each category
    - Notification of command-linked tasks
  - Search UIC capability
- Administrative features
  - Save draft, submit and validate and cancel
  - Submit Task Changes to J7 to update UJTL
